Cyber Bullying

The District's computer network and the Internet, whether accessed on campus or off campus, during or after school hours, may not be used for the purpose of harassment. All forms of harassment over the Internet, commonly referred to as cyber bullying, are unacceptable and viewed as a violation of this policy and the District's acceptable computer use policy and procedures.

Malicious use of the District's computer system to develop programs or to institute practices that harass other users or gain unauthorized access to any entity on the system and/or damage the components of an entity on the network is prohibited. Users are responsible for the appropriateness of the material they transmit over the system. Hate mail, harassment, discriminatory remarks, or other antisocial behaviors are expressly prohibited.

Cyber bullying includes, but is not limited to the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another person by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings, including blogs. It is also recognized that the author (poster or sender) of the inappropriate material is often disguised (logged on) as someone else.

Students and community members, who believe they have been the victims of such misuses of technology, as described in this policy, should not erase the offending material from the system. A copy of the material should be printed and brought to the attention of the school Principal.

The administration shall fully investigate all reports of cyber bullying.

In situations in which the cyber bullying originated from a non-school computer but brought to the attention of school officials, any disciplinary action shall be based upon whether the conduct is determined to be severely disruptive of the educational process so that it markedly interrupts or severely impedes the day-to-day operations of a school. In addition, such conduct must also be violative of a publicized school policy. Such conduct includes, but is not limited to, threats, or making a threat off school grounds, to kill or hurt any staff member or student.

Disciplinary action may include, but are not limited to, the loss of computer privileges, detention, suspension, or expulsion for verified perpetrators of cyberbullying. Administrative Regulation 5131.7A (Bullying Behavior in the Schools) shall also apply herein. In addition, when any kind of threat is communicated or when a hate crime is committed, this shall be reported to local law officials.
