

Date 9/6/11

Dear Parents/Guardians of Sixth Grade Students:

The Coventry School District, in compliance with State law, requires evidence of a physical examination of all students in Grade 6. This physical needs to be completed **during your child's sixth grade year from June 20, 2011 to June 20, 2012 and be in the nurse's office before the first day of 7th grade to allow entry on the first day of school in August.**

Please **sign** and **date** this letter. **Fill in the date** of your child's doctor's appointment if a physical has not been done yet and have your child **return** this letter to the nurse **this week**. If you handed the physical form in already please note this after your signature. This will be the only reminder you receive from the health office regarding the health requirement for entry into 7th grade.

Please make sure the doctor has documented on the State form the following three State requirements prior to handing it into me:

- 1.) Second MMR vaccination
- 2.) Documentation of chicken pox immunity, complying with the new state regulations.
- 3.) Documentation of tuberculosis assessment
- 4.) Documentation of Tdap and Meningitis vaccines

If your doctor plans to mail or fax the completed physical to me, you will need to call me before the end of the school year to confirm that I have received it. Thank you for your cooperation. Please feel free to call me with any questions at 742-4541.

Sincerely,

Joyce Manning, R.N.
School Nurse
